RULES AND REGULATIONS

A. APPLICATION

1. General

- a. The Rules and Regulations specified herein apply to the local exchange services and facilities furnished by the Northern Iowa Telephone Company d/b/a Premier Communications hereinafter referred to as the Company. If the customers fail to observe these Rules and Regulations, the Company has the option to discontinue service after due notice of such failure.
- b. In the event of a conflict between these General Rules and Regulations and any conditions contained in the Local Exchange Tariffs, the rates and conditions contained in the specific tariff section shall prevail.
- c. This Tariff cancels and supersedes all other Tariffs of the Company issued and effective prior to the effective dates shown on individual sheets of this tariff.

B. OBLIGATION AND LIABILITY OF TELEPHONE COMPANY

1. Availability of Facilities

- a. The Company's obligation to furnish local exchange service is dependent upon its ability to secure and retain, without unreasonable expense, suitable facilities and rights for such facilities, except as provided for in Part V, Line Extensions.

2. Allowance for Failure of Service

- a. The Company does not guarantee uninterrupted working of its lines or equipment. In case service is interrupted other than by the negligence or willful act of the customer, an adjustment will be made in the amount of the charges for that portion of the service rendered inoperable. Any adjustment shall apply only if the interruption continues beyond twenty-four (24) hours after first noted by the Company. Adjustment will be made in the form of a bill credit. No other liability shall in any case attach to the Company.

3. Adjustment of Charges

- a. In the event of an adjustment of charges for overbilling by the Company, a refund or credit will be made of the full amount of excess charges for a period not to exceed five years. When the period or amount for which overbilling cannot be fixed from available records, the maximum refund or credit will not exceed an estimated amount of such billing.

1. Application for Service
  - a. Applications for service may be made orally or in writing. These applications become contracts upon the establishment of service. The Company may require an applicant to pay in advance an amount equal to one month's exchange rate. If a deposit is required by the Company, applicable non-recurring charges and service charges (if any) may be required in advance. The terms and conditions specified for such contracts are subject to these General Rules and Regulations and the local Exchange Tariff for the exchange from which service is to be furnished. Any change in rates, rules or regulations shall act as a modification of the contract to that extent, without further notice.
  - b. Minimum contract periods and termination of service are covered elsewhere in Part II of this tariff.
2. Telephone Numbers
  - a. The customer has no proprietary right in the telephone number or any right to continuance of service from any specific central office, and the Company may assign or change the telephone number, the central office designation, or both, as is necessary in the conduct of its business. Except for non-payment of yellow page advertising, when customers are assigned a new number within the exchange, the former working number intercept shall provide the new number to a calling party for not less than 60 days or until the issuance of a new directory.
3. Alterations

- c. Only one written notice will be provided to the customer if multiple violations occur.
- d. 4. Emergency Medical Conditions

Disconnection of a residential customer shall be postponed 30 days if an existing medical emergency of the customer, a member of the customer's family, or any permanent resident of the premises where service is rendered would present an especial danger to the health of any permanent resident of the premises. Indicators of an especial danger to health include, but are not limited to: age; infirmity; mental incapacitation; serious illness; physical disability, including blindness and limited mobility; and any other factual circumstance which may indicate a severe or hazardous health situation. The telephone utility may require written verification of the especial danger to health by a physician or a public health official, including the name of the person endangered, and a statement that the person is a resident of the premises in question. Initial verification may be by telephone, but the telephone utility may require a written verification within 5 days of the verification of the especial health danger by the physician or a public health official, including the name of the person endangered and a statement that the person is a resident of the premises in question. If the service has been disconnected within 14 days prior to verification of illness for a qualifying resident, service shall be restored to that residence if a proper verification is thereafter made in accordance with the foregoing provisions. If the customer does not make payment during the 30-day period, the service is then subject to disconnection.

5. At Customer's Request

- a. Contracts for service may be terminated prior to the expiration of the contract period provided advance notice is given to the Company and upon agreement to pay all charges due for the service furnished, plus any termination charges which might be applicable.
- b. Where a contract for service with a one-month minimum period is canceled before establishment of the service is completed, a charge not to exceed the service charge specified, is applied if all or a portion of the facilities have been installed.
- c. No minimum or termination charge will apply (unless otherwise stated specifically in this Tariff) where a new customer takes over the service of the former customer, provided the service is to be furnished at the same location without interruption and that the new customer assumes all unpaid charges on the original contract. Minimum and termination charges will apply for any service furnished under the original contract which is not retained by the new customer.

The customer pre-selects a second telephone number to which he wants all incoming calls to be automatically transferred. Calls may be transferred to a long distance message telecommunications point subject to the availability of the necessary facilities in the central office from which the calls are to be transferred. Call Forwarding shall not be used to extend calls on a planned and continuing basis to intentionally avoid the payment in whole or in part, of message toll charges that would regularly be applicable between the station originating the call and the station to which the call is transferred. Customers utilizing Call Forwarding service are responsible for the payment of the charges for each toll call between the telephone to which the call was transferred.
- g) CALL FORWARD BUSY - This feature provides forwarding capability to incoming calls that encounter a busy signal. The forwarded-to DN is programmed by the subscriber by dialing an access code followed by the number.
- h) CALL FORWARD NO ANSWER - this feature provides forwarding capability to incoming calls that encounter a no-answer state. The forwarded-to DN is programmed by the subscriber by dialing an access code followed by the number. In addition, the subscriber programs that number of rings before transfer to designate a no-answer state.
- i) CALL FORWARD REMOTE ACCESS - allows subscribers to activate or deactivate the Call Forward option on their telephone from a local or toll remote station. This is accomplished by dialing a dedicated base DN, your own seven-digit DN, followed by a Personal Identification Number, and the activation/deactivation codes.

- k) CALLING NUMBER DELIVERY - allows for the automatic delivery of a calling party's telephone number (including non-published and non-listed telephone numbers) to the called customer, which gives the called customer an opportunity to decide whether to answer the call immediately or not. - l) CALLING NAME & NUMBER DELIVERY - allows for the automatic delivery of a calling party's name and telephone number to the called customer, which gives the called customer an opportunity to decide whether to answer the call immediately or not. The name and number is displayed on customer provided equipment.

The Company, in its discretion, may abbreviate or limit that name for display purposes. The Company's sole and only obligation shall be to reasonably correct errors in names when notified in writing of such errors.

- m) CALLING NAME & NUMBER DELIVERY BLOCKING - PER CALL - enables a customer to control the disclosure of their telephone number or name and telephone number to a subscriber of Caller Identification (where technically feasible) by temporarily changing the public/private status indicator of the telephone number. A customer must dial a code before each call to change the indicator from public to private. "Public status" allows delivery of the telephone number or name and telephone number. "Private status" prevents delivery of the telephone number or name and telephone number. Per Call Blocking is provided at no charge.

- n) CALLING NAME & NUMBER DELIVERY BLOCKING - PER LINE - provides a permanent private indicator on a customer's line. Once blocking is established on the customer's line, the private status cannot be deactivated by the customer. Rates and charges are provided herein. The certification form identifies the customer who is to receive Per Line Blocking at no charge and acknowledges that if a line is equipped with Per Line Blocking, that the telephone number and name will not be delivered to subscribers of Caller ID, including poison control centers, hospitals, medical centers and others who might use Caller ID to provide assistance. 911 is not affected. And, some subscribers of Caller ID Service may choose not to answer blocked calls.

The customer acknowledges the understanding of the above. Further, the customer releases the Company from all claims and liability, including personal injury caused by its errors, omissions and operation or malfunction of Per Line Blocking service.
