1. Our Responsibilities and Your Rights Under Federal Law

When you communicate with us, we collect information from you that we use to deliver, provide, confirm, change, bill, monitor, maintain and repair your services and service-related devices. Some of this information may be “personally identifiable information” or “customer proprietary network information” (“CPNI”) as defined by Federal law.

Section 631 of the federal Cable Communications Policy Act of 1984, as amended (the “Cable Act”) provides special privacy protections for personally identifiable information we may collect about our

cable and multichannel video service subscribers. For these purposes, personally identifiable information is information that identifies a particular person or persons, it does not include aggregate data that does not identify a particular person or persons.

If you subscribe to our multichannel video programming services, you have a right to know:

- the nature of any personally identifiable information we may collect and the ways we may use this information;
- under what circumstances and to what parties we may disclose personally identifiable information;
- how long we will maintain personally identifiable information;
- the times and places where you may access your personally identifiable information; and
- your rights under the Cable Act concerning personally identifiable information.

Section 702 of the federal Telecommunications Act of 1996, as amended (the “Telecommunications Act”) provides special privacy protections for CPNI we may collect about our telecommunications and Voice over Internet Protocol (VoIP) service subscribers. CPNI generally includes information about the quantity, technical configuration, type, destination, location and amount of your use of voice services and information contained on your bill concerning the type of voice services and features you subscribe to or receive. If you subscribe to our voice services, you have the right, and Premier has a duty, to protect the confidentiality of CPNI.

As required by the Cable Act and the Telecommunications Act, this Policy describes: what personally identifiable information or CPNI we collect and how we collect it; how we use or share that personally identifiable information or CPNI; how long we keep your personally identifiable information and/or CPNI; how we protect such information in our possession; and your rights and remedies if we violate this Policy or applicable Federal or State law.

In the event we determine there are any conflicts between this Policy and applicable Federal law (for example, the Cable Act or Telecommunications Act), we will comply with the applicable Federal law. In addition to Federal law, we will also comply with any applicable State law.

2. Information We Collect and How We Collect and Use It

Information Collected When You Communicate with Us

When you communicate with us, we collect information from you that we use to deliver, provide, confirm, change, bill, monitor, maintain and repair your services and service-related devices. This information is also used to resolve issues with your order, with our products and services, or with your account. The information we collect may include your name, addresses, and other contact information; the reason for the contact; and your Social Security Number, date of birth and payment information. We use this information to establish and maintain your customer account and billing records (including establishing credit), provide services to you, authenticate you (i.e., confirming your identify in connection with service or before sharing sensitive personal or account information), and contact you about services that we offer.

When you contact us or we contact you with calls, email, text messaging or through online chat programs or other features on our websites or in our applications, we may monitor or record that

communication or keep a record of the transaction to help us train employees and provide high-quality customer service.

Information Collected When You Use Our Products and Services

We may collect information about your use of our products, services and sites. Information such as call records, websites visited, wireless location, application and feature usage, network traffic data, product and device-specific information, service options you choose, mobile and device numbers, video streaming and video packages and usage, movie rental and purchase data, and other similar information may be used for billing purposes, to deliver and maintain products and services, or to help you with service-related issues or questions. In addition, subject to any legal restrictions that may apply, this information may be used for other purposes such as providing you with information about service enhancements, determining your eligibility for new services or service packages, and marketing to you based on your use of services. This information may also be used to: (a) manage and protect our networks, services and users from fraudulent, abusive, or unlawful uses; and (b) subject to consent practices described in this policy, help us improve our services, research and develop new services, and offer promotions and other services.

If you subscribe to our high speed data services, we may automatically measure and monitor network performance and usage and the performance of your Internet connection to improve your, or our, service levels and products. If you contact us for service support, we also may access information about your computer, wireless device or other device or application settings to provide customized technical support or to install specific applications or services that you use or that are necessary to the applications or services you use.

In certain geographic service areas where we receive certain types of federal high-cost universal service support, we may be required by the FCC to measure and collect information concerning the speed and latency of broadband services provided to randomly-selected subscribers. Pursuant to applicable FCC guidelines, any required testing would be accomplished by using one of three options: (1) existing Measuring Broadband America testing infrastructure (MBA testing), (2) existing network management systems and tools (off-the-shelf testing), or (3) provider-developed self-testing configurations (self-testing). The FCC has adopted requirements regarding when tests would begin, when exactly we may perform the tests, and the number of active subscriber locations we would be required to test. Once testing begins, test results must be reported and certified to the Universal Service Administrative Company (USAC) and Iowa Utilities Board (IUB) on an annual basis. However, no personally identifiable information is included in the test results reported to the USAC or IUB. If you are randomly-selected for testing, the FCC-required performance testing is in addition to the automatic testing we may do to measure or monitor performance and improve our service levels generally.

3. How We Share Your Information

Information Shared Within the Premier Family of Companies

We share customer information within our family of companies for operational purposes. We also share certain types of customer information within our family of companies for our own marketing purposes unless you advise us not to share. Sharing this information allows us to provide you with the latest information about our products and services and to offer you our latest promotions.

Specific laws govern our sharing and use of CPNI. Our voice customers receive a privacy notice regarding CPNI when they first contract for or order service and every two years thereafter. For more information, please read our applicable CPNI notices. You may choose to opt out of the sharing of your CPNI within our family of companies for certain marketing purposes as described below.

When you are speaking with a customer service representative, we may ask your permission to review your records, including your CPNI, to provide you with information about the full array of services provided by our family of companies.

Information Shared With Third Parties

Except as explained in this Policy, we do not sell, license or share information that individually identifies our customers, people using our networks, or website visitors with others outside our family of companies.

We may use vendors and partners for a variety of business purposes such as to help us offer, provide, repair and bill for services we deliver to you. We share information with those vendors and partners to the extent reasonably necessary for them to perform work on our behalf. For example, we may provide your credit card information and billing address to our payment processing company solely for the purpose of processing payment for a transaction you have requested. We require that these vendors and partners protect the customer information we may provide to them and limit their use of our

customer data to the purposes for which it was provided. We do not permit these types of vendors and partners to use this information for their own marketing purposes.

We provide the names, addresses and telephone numbers of wireline telephone subscribers to directory publishers and directory assistance services unless a non-published or non-listed phone number has been requested.

Unless otherwise restricted or prohibited by the Cable Act or Telecommunications Act, we may disclose information that individually identifies our customers or identifies customer devices to third parties in certain circumstances, such as:

- to comply with valid legal process including subpoenas, court orders or search warrants, and as otherwise authorized by law;
- in cases involving danger of death or serious physical injury to any person or other emergencies;

- to advance or defend against complaints or legal claims in court, administrative proceedings and elsewhere;
- to credit bureaus or collection agencies for reporting purposes or to obtain payment for Premier-billed services;
- to a third-party that you have authorized to verify your account information;
- to outside auditors;
- to the FCC, IUB, USAC, or other federal, state, local or other governmental or quasi-governmental authority with jurisdiction over any Service; or
- with your consent.

If we enter into a merger, acquisition or sale of all or a portion of our assets or business, customer information will also be transferred as part of or in connection with the transaction.

4. How to Limit the Sharing and Use of Your Information

You have choices about how we share and use information.

Customer Proprietary Network Information (CPNI)

Under the Telecommunications Act, you may choose whether to allow us to share your CPNI within our family of companies for certain marketing purposes. You may choose to opt out of the sharing of your CPNI within our family of companies for these marketing purposes by following the instructions on our CPNI notices (available at www.mypremieronline.com). You may also opt-out of this sharing by calling us at 1-800-741-8351. **Telemarketing**

Federal "Do Not Call" laws allow you to place residential wireline and wireless phone numbers on the National Do Not Call Registry to prevent telemarketing calls to those numbers. If you would like to add your numbers to this list, you may do so by calling 1-888-382-1222, or by visiting www.donotcall.gov. You should be aware that even if you add your number(s) to the federal or a state Do Not Call list, most telemarketing laws allow companies to contact their own customers. It is Premier's practice not to engage in telemarketing to our own customers. In order to keep you informed concerning our services and your account, we may use an automatic telephone dialing system, artificial or prerecorded voice, text message, or other form of written or audible communication to your designated contact number(s). For example, these informational contacts may include reminders of payment due dates, maintenance alerts and service cutovers.

Marketing Email, Text Messages, Postal Mail and Door-to-Door Calls

Marketing emails you receive from Premier include an unsubscribe instruction (usually found at the bottom of the email) that you may use to opt out of receiving future marketing-related emails. You may also opt out of receiving marketing related emails from Premier by contacting a Premier customer service representative at 1-800-741-8351.

Customers may receive notifications from the Premier HQ mobile application. You may opt out of receiving app-based notifications by turning off notifications within the Premier HQ application or by contacting the Company.

You may opt out of receiving certain marketing-related postal mailings or prevent text message marketing from Premier by calling a customer service representative at 1-800-741-8351. Please note that Premier may use bulk mail service for some marketing mailings. For example, these services deliver offers to all homes in a neighborhood or zip code. This type of mailing will continue even if you opt-out of receiving marketing-related postal mailings from Premier.

5. How Long We Keep Your Information

Under our practices and policies, sensitive records are retained only as long as reasonably necessary for business or legal purposes. We will maintain personally identifiable information about you no longer than necessary for the purpose for which it was collected. This means we may also maintain this information for a period of time after you are no longer a subscriber if it is necessary for business, regulatory or legal purposes. We will destroy the information if we have no pending requests, orders or court orders for access to this information, after we determine that it is no longer necessary for the purposes for which it was collected and in compliance with any applicable federal, state or local laws or requirements.

6. How We Protect Your Information

Premier has technical, administrative and physical safeguards in place to help protect against unauthorized access to, use or disclosure of customer information we collect or store, including Social Security Numbers. Employees are trained on the importance of protecting privacy and on the proper access to, use and disclosure of customer information. Under our practices and policies, access to sensitive personally identifiable information is authorized only for those who have a business need for such access, and sensitive records are retained only as long as reasonably necessary for business, regulatory or legal purposes. Although we work hard to protect personal information that we collect and

store, no program is 100% secure and we cannot guarantee that our safeguards will prevent every unauthorized attempt to access, use or disclose personal information.

7. How You May Access and Correct Your Information

We strive to keep our customer records as accurate as possible. You may correct or update your Premier customer information by calling a Premier customer service representative at 1-800-741-8351 or by accessing your account online and providing the updated information there.
